SAFETY

**INNOVATION THAT BRINGS WORKERS
AT HEIGHT HOME SAFELY.**

Capital Safety is a global company solely dedicated
to fall protection and rescue. Our focus is clear.

It continually drives us to design and manufacture
safer gear that workers want to wear.

Innovation means understanding the industries we serve.

We listen to the workers in the field, employ the most
engineers, customize solutions, register more new patents
and introduce more products. To date, Capital Safety has the best
quality and largest breadth of products in the industry.

But we're more than a product company.

We take an innovative approach in bringing our products
to the field. We have created international partnerships and
a vast network of certified installers and service centers.

We offer on-site and in-house training.

And we're ISO 9001-2000 certified for customer service,
as well as manufacturing and engineering.

Capital Safety is one of the world's leading
manufacturers in fall protection and rescue equipment,
with decades of experience and a legacy of innovation.

Look for complete solutions in our extensive line
of DBI-SALA® and Protecta® products.

DELTA™ HARNESS

**DELTA™ KEEPS
IMPROVING
BECAUSE
SAFETY NEVER
GETS OLD.**

THE ULTIMATE IN FALL PROTECTION PRODUCT SHEET

INTRODUCING THE NEW DELTA™ HARNESSES: INNOVATIVE, FULL BODY SUPPORT FOR MORE THAN TWO DECADES.

There's a lot of industry buzz around the new, improved Delta™ harnesses. They combine a set of "industry-first" advancements, with popular features that have made Delta™ the workhorse of the industry. Today's Delta™ represents the culmination of more than twenty years of design, research, manufacturing know-how and on-the-job performance.

DURABLE

The new Delta™ harnesses are as tough as the guys who wear them. They feature coated, corrosion-resistant hardware. All Delta™ webbing is water-repellant and abrasion-resistant. Labels are protected by secure Velcro® covers. And Delta™ proves its workhorse standing with a 420 lb. carrying capacity.

CONVENIENT

A patented triangular design gives Delta™ harnesses a shape of their own, so you can don them quickly and easily. Revolver™ torso adjusters make adjustments fast and secure. Spring-loaded, stand-up dorsal D-rings help make connections fast, easy and safe. Tech-Lite™ aluminum alloy buckles reduce weight and the energy required to do your job during the course of a day. Our exclusive i-Safe™ system gives you an efficient, digital way of recording and storing information on inspections.

COMFORTABLE

Because Delta™ harnesses hold their basic shape, shoulder straps don't rub your neck raw. Made with soft, breathable materials, the Delta™ comfort hip pad ergonomically supports your back and hips while bearing heavy loads.

THE NEW DELTA™ NO-TANGLE™ HARNESS (FRONT)

REPEL™ WEBBING
Water repellent to reduce attraction of mold and dirt – also has more abrasion resistance.

LANYARD KEEPERS
Delta™ lanyard keepers hold your unused snap hooks and help reduce trip hazards.

REVOLVER™ VERTICAL TORSO ADJUSTER
Simple and fast adjustment that eliminates loose ends and locks into place preventing slippage.

DELTA™ COMFORT HIP PAD
Improved ergonomic fit constructed with a soft, breathable, comfortable interior that supports your back and hips.

TECH-LITE™ QUICK CONNECT BUCKLES
Lightweight aluminum alloy buckles for fast and easy connections.

Other connections available:

Tongue Buckle Pass-Thru Buckle

THE NEW DELTA™ NO-TANGLE™ HARNESS (BACK)

STAND-UP DORSAL D-RING
Patented spring-loaded design automatically stands-up ensuring fast, easy and safe connections to your fall arrest system.

NO TANGLE DESIGN
Defining the Delta™ name, the patented triangular design creates a frame that allows the harness to fall into place when donned.

BUILT-IN IMPACT INDICATORS
Rip-stitch indicators allow you to inspect the harness at a glance, for prior damaging impact loads.

420LB CAPACITY
Large capacity adds to tool carrying options and job-site flexibility.

PROTECTED LABELS WITH i-SAFE™
A Velcro® cover protects harness labels and holds DBI-SALA's i-Safe™ identification tag. It gives you an efficient way of recording and storing information on inspections.
