Fixed Ladder SRL Fall Arrest Anchor with Self-retracting Lifeline for Ladders

PRODUCT LITERATURE

The Fixed Ladder SRL Fall Arrest Anchor is a simple and safe way to bring your ladders into compliance. Between 27 lbs. to 40 lbs., this lightweight solution adds a convenient tie-off point to existing ladders, helping you meet OSHA’s walking working surfaces standard.

Designed with versatile mounting capabilities, the ladder anchor can be positioned to the left or right, and in front or behind the ladder rungs to stay out of the way. Best of all, it’s a breeze to set up in just 5 minutes or less, with minimal parts and easy instructions.
Features & Benefits

- **SRL Tagline Assembly.** The Tagline enables quick and easy retrieval of the Self-retracting Lifeline device (this assembly is only available up to 50ft. ladders).
- **Easy to transport.** Under 40 lbs. for ease of transport and installation.
- **Simple to set up.** Installs on the ladder in 5 minutes or less. Versatile installation allows the ladder anchor to be mounted to front or behind the ladder with left, right or center alignments.
- **Compatible with your existing fall protection harness.** Unlike a fixed cable system, this solution doesn’t require a front D-Ring, which can reduce overall implementation costs.
- **Designed for durability.** Built to withstand permanent or temporary applications.
- **Meets 29 CFR OSHA 1910 Walking Working Surfaces Section 1910.27.**

**LADDER SRL ANCHOR W/ SELF-RETRACTING LIFELINE/DEVICE**

- **EASY TO TRANSPORT**
  Under 30 lbs. for ease of transport and installation.

- **SIMPLE SETUP**
  Installs on the ladder in 5 minutes or less.

- **VERSATILE INSTALLATION**
  The ladder anchor can be mounted to the front or behind the ladder with left, right or center alignments.

- **COMPATIBLE WITH YOUR EXISTING FALL PROTECTION HARNESS**
  Unlike a fixed cable system, this solution doesn’t require a front D-ring, which can reduce overall implementation costs.

- **DESIGNED FOR DURABILITY**
  Available in galvanized or stainless steel.

- **COMPLIANCE COMES STANDARD**
  Meets 29 CFR OSHA 1910 Walking Working Surfaces Section 1910.27.
System Components

**Ladder Anchor** – This anchor adds a convenient tie-off point to existing ladders, helping you meet OSHA’s walking working surfaces standard. The ladder anchor can be positioned left or right, and in front or behind the ladder rungs to stay out of the way.

**Tagline for Self-retracting Lifeline (50 ft.)** – A tagline is a separate line that is used exclusively for allowing the SRL’s line to retract back into the housing during non-use. The tag line is attached to the SRL’s connecting hook and is long enough to allow the SRL line to retract in fully.

**Self-retracting Lifeline (SRL)**
- **Standard SRL**

Selections Explained

To help you make the right choices, we have compiled below an explanation for how you can select parts and configure your system. You can calculate options and pricing at this link.

**OPTION 1 – CHOOSE A FINISH**

- **Galvanized**
- **Stainless Steel**

**OPTION 2 – LENGTH OF ANCHOR POST [ABOVE LADDER]**

- **4 ft. Ladder Anchor** (Above Ladder)
- **6 ft. Ladder Anchor** (Above Ladder)
OPTION 3 – LENGTH OF LADDER

- Ladder upto 20 ft. (6 m) – TAGLINE INCLUDED
- Ladder upto 33 ft. (10 m) – **TAGLINE INCLUDED**
- Ladder upto 50 ft. (15.2 m) – **TAGLINE INCLUDED**
- Ladder upto 66 ft. (20 m) – **NO TAGLINE**
- Ladder upto 85 ft. (25.9 m) – **NO TAGLINE**
- Ladder upto 100 ft. (30.4 m) – **NO TAGLINE**

OPTION 4 – TYPE OF SRL

**Standard SRL:** The SRL’s lifeline will extend as the user moves away, and retract automatically enabling the user to move about within a recommended working area at normal speeds. All models include **Stainless Steel cable.**

**Harsh Conditions SRL:** This SRL contains *environmentally sealed dynamic components that protect from foreign elements such as grease, moisture and dirt.* All models include **Stainless Steel cable,** except the 130 ft. which is **Galvanized Steel cable.**
**OPTION 5 – FULL-BODY HARNESS [OPTIONAL]**

The **Full-body Harness with a fixed Back D-ring** to minimize workday readjustment and a modern design that gives the harness a fresh, sleek look. Plus, Tongue-Buckle Leg Connection, and Pass-Through Chest Connection.

Designed for convenience, these updated harnesses are rated for 420 lbs. (190 kg) total working weight.

System Guidelines

Please follow the following guidelines to ensure you use this system as per the manufacturer’s instructions:

- **Ladder Structure**: Ladder structure must be certified by a qualified person to support 2700 lbs.
- **Capacity**: One person with a combined weight (clothing, tools, etc.) of no more than 310 lbs. (140 kg) 1 per person.
- **Self-retracting Lifeline/Device (SRL/SRD) Maximum Arresting Force**: 1,350 lbs. (6 kN)
- **Fall Arrest**: OSHA & ANSI – Non-Certified Anchorage: 5,000 lbs. (22.2 kN)
- **Tagline Assembly**: Maximum length of ladder is 50 ft. (15.2 m).
- **Tagline Assembly NOT INCLUDED**: The system will not include a Tagline Assembly if the length of the ladder is more than 50 ft.
- **Full-body Harness**: Unlike a fixed cable system, this solution does not require a front D-Ring.
- **Standards/Approvals**: OSHA 29 CFR 1910.27
Self-retracting Lifelines/Devices (SRL/SRD)

PROTECTA Rebel Self-Retracting Lifeline

**Lengths:** 20ft., 33ft., 50ft., 66ft., 85ft., 100ft. Stainless Steel Cable

**Stainless steel wire rope with stainless steel swiveling snap hook, thermoplastic housing and anchorage carabiner.**

The Rebel self-retracting lifeline is built to last providing an economical fall protection solution without compromising performance or safety. The SRL features a 420 pound (190 kg) user capacity, a robust design to ensure longevity and are available in lengths from 20ft. to 100 ft. [Product Link](#)

**FEATURES & BENEFITS**

- Rugged, lightweight thermoplastic housing
- Stackable housing design
- Stainless steel swiveling self-locking snap hook with impact indicator
- Speed sensing all metal brake system
- Internal energy absorption system
- High strength, corrosion resistant components
- Self-locking anchorage carabiner
SEALED-BLOK Self-Retracting Lifeline

**Lengths:** 30 ft. (9.1m), 50 ft. (15m), 85 ft. (25.9m) Stainless Steel Cable; 130 ft. (39m) Galvanized Steel Cable

**Stainless steel wire rope / Galvanized steel wire rope with stainless steel/galvanized swiveling snap hook, thermoplastic housing and anchorage carabiner.**

The Sealed-Blok self-retracting lifelines (SRL's) incorporate a patented concept that separates all dynamic components, including the motor spring and brake, from foreign elements such as grease, moisture and dirt. You can always trust your SRL to work at peak efficiency without worrying about the environment you’re working in. Our sealed SRLs are backed by decades of proven field service for absolute confidence, safety and reliability. [Product Link](#)

**FEATURES & BENEFITS**

- Environmentally sealed dynamic components
- Extremely durable construction
- Anti-ratcheting locking system
- Swiveling stainless steel snap hook with impact indicator
- Swiveling snap hook with impact indicator
Full Body Harness w/ Front & Back D-Ring

Protecta Vest-Style Harness (Medium/Large Size)

Sizes: Medium/Large (Universal), Small, X-Large, XX-Large

Protecta Vest-Style Harness with a fixed Back D-ring to minimize workday readjustment and a modern design that gives the harness a fresh, sleek look. Plus, Tongue-Buckle Leg Connection, and Pass-Through Chest Connection. Designed for convenience, these updated harnesses are rated for 420 lbs. (190 kg) total working weight. Purchase Individually →

FEATURES & BENEFITS

- Fixed D-ring reduces the need for readjustment throughout the workday
- Modern design gives harness a fresh and sleek look
- ANSI-compliant auto-resetting lanyard keepers for fast and easy parking of snap hooks and carabiners
- Impact indicators make it easy to inspect the harness for prior damaging impact loads
- Protected labels for long-term identification and inspection
- Back D-ring, Tongue-Buckle Leg Connection, Pass-Through Chest Connection
!! CAUTION !! This is a fall protection system. The system must be used in strict conformance with the manufacturer's instructions. Failure to do so may result in serious injury or death. Do not use or operate this system unless you are properly trained.
