Falls from flatbed trailers cause countless injuries and fatalities. Protect your employees with the OSHA compliant Flatbed Truck Mounted Guardrail protection system. This system is a more compact, easy-to-install and transport package.

Climbing on and off the flatbed also puts your employees at risk. The system eliminates both these hazards from the workplace. An access ladder has been provided and designed to fit in standard flatbed side pockets.

The flatbed side rail solutions fit in standard trailer pockets and include all components necessary to protect trailers up to 53-ft long.
Features & Benefits

- **Safety is Job No. 1**
  At 10 ft. (height of a worker standing on a 48” flatbed) up to 720 lbs. of energy and 4300 lbs. of impact force are generated. This is more than enough to cause severe injury or fatality. Climbing on and off the flatbed also puts your employees at risk. The Flatbed Truck Guardrail system eliminates both these hazards from the workplace.

- **New Transportation Cart**
  Allows quick and easy transport. With large tires, the Transportation Cart can be moved by one person over uneven terrain. The unique handle/brake keeps the cart stationary during loading and unloading.

- **E-Z Mount Ladder**
  Designed to fit in standard flatbed side pockets. At only 36 lbs. it is easily laced. When combined with the Flatbed Truck Guardrail Gate safe access to the flatbed is assured for installing load binders and tarping equipment.

- **Flexibility**
  The Flatbed Truck Guardrail system is designed to fit in standard pockets and includes all components needed to protect trailers up to 53ft. long. With installation in less than 10 minutes, the Flatbed Truck Guardrail makes safety easy.

  - Drop in the rail system that installs in stake pockets to provide full perimeter fall protection for the bed of the truck.
  - Easy mount ladder and gate fits in the stake pocket.
  - Rough terrain cart with flat free tires provides transport and storage.
  - Clamp-On Rail Pockets for trucks with damaged or missing side rail pockets.

**SPECIFICATIONS**

- Meets applicable OSHA 1926.502 standards for fall protection.
- Cart Dimensions: Length: 116”, Width: 45”, Height: 75”.
- Weight: 903 lbs. fully loaded (435 lbs. cart only).
- Tires: Flat Free Filled
- Ladder Width: 45”
Install Instructions

Install Ladder
