The Portable Access Platform is designed to provide safe access and fall protection on the top of tanker trucks, bulk trucks, and railcars. The unit provides portable access with a safety enclosure designed for applications that do not allow the ability to use permanent truck loading platforms or when space is limited.
Features & Benefits

MATERIALS OF CONSTRUCTION
Rugged construction includes:
- Welded steel frame with aluminum safety cages
- 2, 8” swivel casters with brakes
- 2, 8” fixed direction casters.

FINISHES
- Hot Dip Galvanized
- Painted Standard Grey Enamel

SELF-SUPPORTING DESIGN
- Counterweighted design allows access without being supported by the vehicle.
- Rated to 500 lbs.

SAFETY CAGES
- Standard Tank Trucks and Railcar designs available
- Custom designed safety cages to meet your specific application

System Components

The Portable Access Platform System includes:

1. Access Platform
2. Staircase
3. Safety Enclosure
4. 2.8" Fixed Direction Wheel Casters
5. 2.8" Swivel Wheel Casters with brakes

**PLEASE NOTE:** This is a custom fabricated product and prior to fabrication, we will send you a drawing for your review and approval. Upon approval, we will proceed with fabrication.
Optional Upgrades

Swing Gate (Aluminum)
A swing gate at the entrance of the platform staircase to restrict access.

Steel Tow-bar
A steel tow-bar to relocate the platform from one place to another.

Forklift Pockets
Forklift pockets are used to transport the platform with the help of a forklift. These pockets fit onto the system when relocating the platform.
For TRUCKS
